

Good things come in small packages. The MP-20 is a versatile, compact thermal receipt / label printer with unique styling and a high capacity roll (118 ft. roll).

Compact, quick, easy to use - this thermal printer uses no ink or toner and connects to any computer device that can provide output to a standard ASCII printer. Features automatic checksum calculation, 7 internal fonts, and built-in bar code symbology (Code 39)

Print text and bar codes on labels or receipts with this compact thermal printer. Accommodates 2" wide labels or paper. RS-232 interface.

**Included in box: Printer, 9V AC adapter, 1 paper roll, RS-232 cable and mini-gender converter.
