

INSCALE™

ALUMINUM FLOOR SCALE

RUGGED

All structural aluminum construction. No formed bracing or ornamental tubing. Extra heavy duty 3/8" diamond deck-plate. All lightweight aluminum but still strong.

ACCURATE AND DURABLE

Utilizes four NTEP shear beam load cells with a combined rating of 200% of full scale capacity, either NEMA 6 submersible or hermetically sealed.

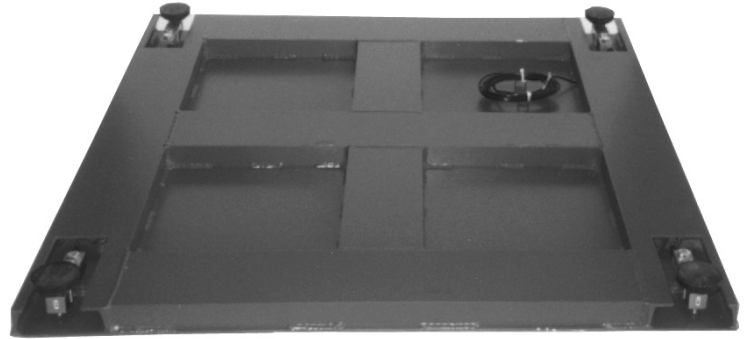

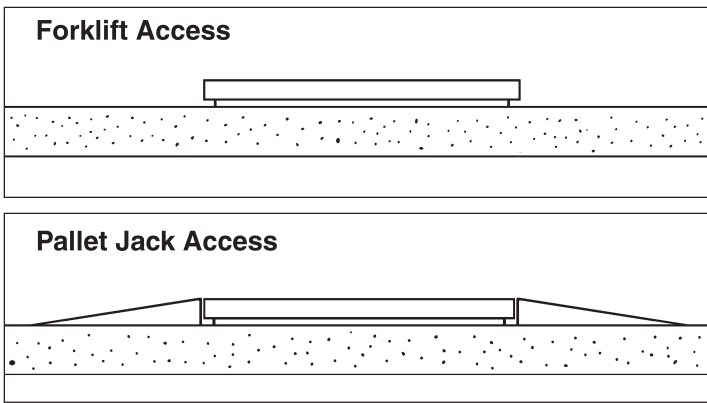

VERSATILE

Use with a full range of accessories.
Corrosion-resistant for hostile environments.
The ideal rental scale.
Light weighing, without being a lightweight.
