## Versadeck™

THE WASHDOWN FLOOR SCALE  
THAT OBSOLETES STAINLESS STEEL DECKS!!

- **REMOVABLE NON-METALLIC DECK INSERT**

(1" Thick Polyethylene Standard)

- **EASIEST "CLEAN-IN-PLACE"**

Just lift out the deck insert, leaving the stainless steel scale frame in place, and hose down! Requires only one person from the cleanup crew and no materiel handling devices.

- **WITHSTANDS DAILY WASHDOWN**

Non-metallic deck insert, type 304 stainless steel frame, feet and bolts. Stainless steel load cells. Stainless steel junction box.

- **ECONOMICAL**

Less than half the cost of other so-called "Clean-in-place" all-metal decks. Also safer and more convenient. Greatly reduces the likelihood of back, hand toe injuries.

### **APPLICATIONS**

Food, chemical, pharmaceutical, red meat, poultry and fish plants. Can also be used without deck insert as a weigh frame to eliminate costly tank scale corner mounts. Also an ideal rental scale in painted steel.

**PATENTED**

## SPECIFICATIONS

Available in all conventional scale sizes and capacities, 4x4 5k being the most common. Custom sizes gladly done. Use "-LT" suffix on model numbers to identify the **VERSADECK**. Standard scale supplied with polyethylene deck insert. Other materials available.

- Uses four each stainless steel NTEP load cells of appropriate capacity.
- Accuracy to NIST H44 (5,000 division performance).
- Height 4-1/2" on standard models.
- Weight (Example 4x4) frame 140 lbs, deck insert 80 lbs.
- Junction - Supplied with Stainless Steel; built-in or remoted.

### **POLYETHYLENE 1" THICK CUTTING BOARD STOCK High Density/Stress Relieved**

Stock Sizes 48" x 120", 48" x 96"

A pure high density polyethylene material used for cutting blocks in meat or other food processing operations. Matte finished boards are odorless, tasteless and non-absorbent. **Approved by N.S.F., U.S.D.A., F.D.A. Federal Specifications, 4500 PSI Rated.**

**RESISTS:** Acetone, Ammonia, Boric Acid, Ethyl Alcohol, Formaldehyde, Glycerine, Glycerol, Hydrochloric Acid, Hydrogen Peroxide, Isopropyl alcohol, Methyl Alcohol.

## OPTIONS

- Other deck insert materials. (or you supply)
- Painted steel frame. (further economy)
- Plated load cells. (further economy)
- No junction box.
